D – F	20	Red 2 Piece	Yes 6 overs	1hr 20 min	12.30pm	1.50pm – 2.05pm	3:25pm

2.1.2 The uniform for the A, B and C Grade competitions shall be of a coloured design approved by the PCA.

2.1.3 The uniform for the D, E and F Grade competitions shall consist of a coloured or predominantly white designed shirt and white playing pants approved by the PCA.

2.1.4 All players in a side must be wearing consistent playing attire.

2.2 Match Conditions

2.2.1 Matches shall commence play at the corresponding 'First Innings Start Time' detailed in 2.1.1.

2.2.2 Each match shall consist of a number of overs at the corresponding 'Overs per innings' detailed in 2.1.1.

2.2.3 The ball type detailed in 2.1.1 shall be used in all matches.

2.2.4 Should the allotted overs for the first innings not be completed within the time of 'Innings Duration' detailed in 2.1.1, then the team batting first shall continue batting until the 'Overs per innings' are received, or the batting team is dismissed. Recommended Over Rates are detailed in Appendix C – Expected Over Rates.

2.2.5 The team batting second shall only receive the number of overs completed within the 'Innings Duration' time allotment of the first innings (i.e. by the start of the scheduled 'Innings Change') This must be communicated to both captains during the innings break otherwise no reduction can be applied.

2.2.6 The team bowling second shall complete its scheduled overs by the corresponding 'Second Innings End Time' detailed in 2.1.1, otherwise 6 runs for every over short shall be added to the batting teams score and the remaining over's still have to be completed.

2.2.7 Each half hour the umpire shall communicate to the bowling team the status of their over rate. In matches where an official umpire is not present this shall also be communicated to the scorers who are required to note down the time and detail regarding the number of overs the bowling team is behind by. If this does not occur than no penalty runs can be applied under 2.2.6.

- 2.2.8 If the commencement of play is delayed and/or playing time is lost during the course of the match due to unfitness of the ground, wicket, weather or light for play, then the time in which the bowling team must complete its allotted overs shall be notified by the umpire, or should an umpire not be present agreed upon by both captain's. Conditions and penalties detailed in 2.2.3, 2.2.4, and 2.2.5 shall apply to this revised time
- 2.2.9 Should there be an unexpected delay during an innings for injury, lost ball or for any other wholly acceptable reason, as determined by the umpires then the innings time shall be extended to compensate for this delay. The revised innings closure time shall be notified by the umpire, or should an umpire not be present agreed upon by both captain's.
- 2.2.10 A commenced over shall be deemed as a completed over.
- 2.2.11 The maximum number of overs any bowler may bowl in an innings is equal to one-fifth (20%) of the 'Overs per innings'. In a delayed or interrupted match where the number of overs is reduced for both teams or the team bowling second, a bowler may bowl no more than one-fifth (20%) of the total over's allowed. Where the total over's to be bowled is not divisible by five, one additional over shall be allowed to the maximum number per bowler necessary to make up the balance.
- 2.2.12 Subject to condition 2.2.6 a match shall consist of a minimum of 30 deliveries bowled to each team otherwise it shall be considered abandoned.
- 2.2.13 If a game cannot be commenced within 120 minutes of the scheduled start time it shall be abandoned unless the captains agree earlier to such abandonment.
- 2.2.14 Matches where each team has received their minimum number of deliveries to be bowled (per condition 2.2.11) and a match is unable to be completed due to lost playing time, the winner will be determined by using the Duckworth-Lewis-Stern method.

2.3 Power Play

- 2.3.1 Power Play rules shall apply to all T20 matches
- 2.3.2 Power Play shall consist a number of overs equal to the value stated in 'Power Play' under Playing Condition 2.1.1 and apply to the first overs of each innings (Power Play Overs).
- 2.3.3 Two semi-circles shall be marked on the field of play. The semi-circles shall have as their centre the middle stump at either end of the pitch. The radius of each of the semi-circles shall be 30 yards (27.43 meters). The semi-circles shall be linked by two parallel straight lines marked on the field, to be known the Fielding Restriction Area. The area should be marked by flat discs at 5 yard (4.57 meters) intervals, each 'disc' is to be a white plastic or rubber (but not metal) disc measuring 7 inches (18 cm) in diameter. Refer to Appendix B - Fielding Restriction Area for further information.
- 2.3.4 During the Power Play Overs only two fielders shall be permitted outside the Fielding Restriction Area at the instant of delivery.
- 2.3.5 During the non-Power Play Overs, no more than 5 fielders shall be permitted outside the Fielding Restriction Area.
- 2.3.6 In circumstances when the number of overs of the batting team is reduced, the number of Power Play Overs shall be reduced in accordance with the table below. For the sake of clarity, it should be noted that the table shall apply to both the 1st and 2nd innings of the match.

Reduced Maximum Overs	Power Play Overs
5-6	1
7-9	2

Reduced Maximum Overs	Power Play Overs
10 -11	3
12-14	4
15-18	5
19-20	6

- 2.3.7 If an innings is interrupted during an over and if on the resumption of play, due to the reduced number of overs of the batting team, the required number of Power Play Overs have already been bowled, the remaining deliveries in the over to be completed shall not be subject to the fielding restrictions.
- 2.3.8 In the event of an infringement of any of the above fielding restrictions, the umpire shall call and signal 'No Ball'.

2.4 General Conditions of Play

- 2.4.1 A bowler shall be limited to one short-pitched delivery per over. A short-pitched delivery is defined as a ball, which passes or would have passed above the shoulder height of the striker standing upright at the popping crease.
- 2.4.2 The umpire at the bowler's end shall advise the bowler and the batter on strike when a short pitched delivery has been bowled. In addition, a ball that passes above head height of the batter, standing upright at the popping crease, that prevents them from being able to hit it with his bat by means of a normal cricket stroke shall be called a Wide.
- 2.4.3 For the avoidance of doubt any short pitched delivery that is called a Wide under clause 2.4.2 shall also count as the one allowable short pitched delivery in that over.
- 2.4.4 All subsequent short pitch deliveries above and beyond the one allowable delivery per over shall be declared a no ball.
- 2.4.5 A delivery passing the striker on the off side outside the Off Side Wide Guideline shall be a Wide provided he/she maintains a normal batting position and has not brought the ball within reach. If, in the opinion of the umpire, the striker has brought the ball within reach, the Off Side Wide Guideline shall be disregarded and the umpire shall apply a general interpretation consistent with the normal operation of Law 22.
- 2.4.6 A delivery passing the on the leg side of the striker without any contact with the striker's bat or person shall be a Wide unless:
- (a) the ball passes between the striker and the stumps.
 - (b) the striker moves toward the off side and, in the umpire's opinion, the ball would have made contact with the striker in a normal batting position.
 - (c) the striker is attempting to play, or has aborted an attempt to play, a reverse sweep or switch hit. In this scenario only a delivery passing the striker outside the Off Side Wide Guideline on the leg side shall be a Wide.
- 2.4.7 When adjudicating wides, leniency should be given in Grades D to F. Any ball pitching within the wide guidelines on either the leg side or off side of the batter should be called a fair delivery.
- 2.4.8 Pitches to be marked as per Appendix A – Pitch Markings.

- 2.4.9 Boundaries are to be marked at 60 meters from the centre of the wicket. Where boundaries have to be reduced to avoid a hazard teams should ensure a safe distance is kept between the boundary line and the hazard.
- 2.4.10 Coloured plastic cones or domes are the only boundary markers to be used within the Peel Cricket Association, unless otherwise approved by the Management Committee. In the event the boundary line is not also marked, a straight line between the markers is deemed to be the boundary.
- 2.4.11 Peel Cricket Association strongly recommends all players wear British Standard 7928:2013 compliant helmets when batting, wicket-keeping up to the stumps and fielding close to the batter.
- 2.4.12 In addition to the calling of all varieties of No-Ball the next following delivery shall be a Free-Hit for whichever batter is facing. If the delivery for the Free-Hit is not a legitimate ball (any no-ball or wide), the next delivery shall be a Free-Hit for whichever batter is facing.
- 2.4.13 For any Free-Hit the striker can only be dismissed under the same conditions as a delivery deemed a no-ball, even if the delivery is called wide ball. Field Changes for free-hits are not permitted unless a change of striker has occurred or to correct a fielding restriction breach (only the breaching fielder may be corrected). The Umpire shall signal free hit before delivery after signalling a no-ball.
- 2.4.14 Law 40 - Timed Out shall apply, however the time allowed shall be reduced to 90 seconds.
- 2.4.15 Maximum of 5 fielders to be allowed to field on the leg side at any one time.

2.5 Super Over

- 2.5.1 In the event scores are tied at the completion of both innings a super over shall be used to determine the winner of the match.
- 2.5.2 The Super Over shall take place immediately after the main match has ended.
- 2.5.3 The team batting second in the match will bat first in the Super Over.
- 2.5.4 The officiating umpires will select 2 (two) identical balls for each team to use during the super over.
- 2.5.5 Batting Team
 - (a) The batting team shall nominate three batsmen to face the Super Over.
 - (b) The nominated batsmen must be chosen from a player who had participated during the main match.
 - (c) If at any stage the batting team loses two wickets, the super over shall conclude.
- 2.5.6 Bowling Team
 - (a) The bowling team shall nominate one bowler to deliver the Super Over.
 - (b) The nominated bowler must be chosen from a player who had participated during the main match.
 - (c) Fielding restrictions in place during the final over of the main match shall apply to both innings of the super over.
- 2.5.7 Format
 - (a) The Super Over shall consist of one over (six legitimate deliveries) per team.
 - (b) The team batting in the Super Over shall score runs as per the normal cricket rules, including the award of additional runs for no balls and wides.
 - (c) The team with the higher number of runs at the end of the Super Over shall be declared the winner.

- (d) If the Super Over results in a tie, a subsequent Super Over shall be played.
- (e) If the 2nd Super Over results in a tie then the team whose batters hit the greatest number of boundaries combined from its two innings in both the main match and the Super Over shall be the winner.
- (f) If the number of boundaries hit by both teams as specified in 2.5.7(e) is equal, the team whose batters scored more boundaries during its innings in the main match (not including the Super Over) shall be the winner.
- (g) If the number of boundaries hit by both teams as specified in 2.5.7(f) is equal then a count-back from the final ball of the Super Over shall be conducted. The team with the higher scoring delivery shall be the winner. A wicket shall be counted as dot balls. Note that for this purpose, the runs scored from a delivery is defined as the total team runs scored since the completion of the previous legitimate ball, i.e. including any runs resulting from a Wide ball, a No ball or penalty runs.
